

## Complimentary Risk Control Webinar

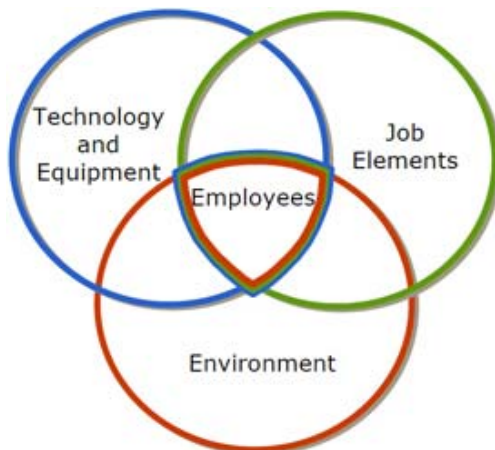

# Office Ergonomics: Issues and Assessments

**Technology, job elements and the work environments can have an effect on health and job performance.**

Ergonomics is the science of work and a person's relationship to that work, in order to optimize human well-being and overall performance.

This Webinar will discuss workplace behaviors, the demands on and capabilities of your employees, and the risk factors that can increase the likelihood of musculoskeletal disorders (MSDs). In addition, we will explain how to properly adjust a computer workstation using our Four-Step Process.

Join Travelers Risk Control on [January 25th](#) and learn how to reduce the risks associated with poor workplace ergonomics.

**DATE:** [January 25, 2012](#)
